APPLICATIONS

General purpose water suction and delivery hose, suitable for use in Agricultural applications. Users will see large benefits in handling this hose, especially flexibility and force to bend properties, when comparing to a standard smooth cover hose. Hose manufactured in Canada.

FEATURES

- Ease of handling.
- Very flexible, extremelex family of products.

CONSTRUCTION

Core tube: Black EPDM.
Pressure reinforcement: Corrugated Black EPDM.
Cover: Spiral-plyed fabrics and double helix wires.

TEMPERATURE RANGE

-40°C to 93°C.

Please Note: We reserve the right to make technical changes without notice.
