

AB5K-API7K

ROTARY DRILLING & VIBRATOR HOSE

Pressure Level							
	inch	inch	bar	psi	bar	psi	mm
5000 Grade D	3	104	345	5,000	862	12,500	1,000
	3 1/2	121	345	5,000	862	12,500	1,200
	4	134	345	5,000	862	12,500	1,200

APPLICATIONS

Flexible connection between the upper end of the standpipe and the top drive/swivel and between the pump and the lower end of the stanpipe for pumping mud at high pressure in oil drilling and exploration work.

FEATURES

- API7K FSL 1 and 2 Monogrammed Assembly

CONSTRUCTION

Core tube: NR and SBR synthetic rubber, HNBR, UPE, PTFE.
Pressure reinforcement: 6 layers of high tensile super flexible spiral steel wire or steel cable.
Outer cover: Abrasion and weather resistant synetic rubber.

TEMPERATURE RANGE

-20°C to 100°C.

Please Note: We reserve the right to make technical changes without notice.
