

Test - A frame

Manifolds and valves

## Technical data

Test frames, valves and manifolds	
Test pressure	Up to 4137 bar / 60,000 psi
End ports	2 x 1/2" NPT Port complete with 9/16" HP ports
Top ports	4 x 1/2" NPT Port complete with 9/16" HP control valve
Valves	Stainless steel
Frame	Stainless steel
Weight (without valves and fittings)	20 kg
L x W x H (mm)	600 x 350 x 769

Abdex can offer a wide variety of Test Frames and Manifold blocks working up to 4200 bar (60,000 psi). Liquid and gas can easily be directed at the pressures required.

Our popular "A" frame design provides a perfect working height and can be supplied with any number of ports, control valves and thermowells as required.

Concept, design and complete!
