

INSULATOR CUTTING MACHINE HAND OPERATED

ICM 300

Technical data

	ITM 300
Insulation rods	Ø 16 to 88mm
Cutting blade	TM DG 300 x 2.5 x 30
Drive	2 kW
Noise level	93 dBA

Quality and flexibility

- Diamond cutting blade
- Roller conveyors at both ends (3000 / 2000mm)
- Extraction system with dust filter
- Adjustable cutting length 150-2000mm (Adjustable by means of integrated length measuring and clamping tool)

The ICM 300 has been specifically developed for the cutting of insulators and glass fibre rods.

For Insulator testing, refer to page 500.

The best return on Investment since 1972.
