# AH1200 HEAVY DUTY AIR HOSE

#### **Product specifications**

#	Ø		Ó					Kg	
	mm	inch	mm	bar	psi	bar	psi	kg/m	mm
AH1200-0200	60.8	2	70	80	1,200	320	4,800	3.68	612
AH1200-0300	76.2	3	98	80	1,200	320	4,800	5.99	910

#### **APPLICATIONS**

High temperature compressed air specifically designed for use in the mining and drilling industry. Braided construction for diameters 38mm and 51mm. Spiral construction for diameter 76mm.

#### **FEATURES**

- Specific design for use in the mining and drilling high temperature air industry
- Very high operating temperature resistance
- Featuring a very high working pressure of 1200 psi. Capable of withstanding peaks of 232°C
- · Perforated outer cover for air
- Ozone and Abrasion resistant cover
- Oil mist resistant inner tube
- 4:1 Safety factor

## **CONSTRUCTION**

Core tube: Black bromobutyl. Oil mist and high temperature resistant.

**Pressure reinforcement:** High tensile steel braids / cords.

**Cover:** Blue EPDM. Abrasion and ozone resistant, pin pricked.

**Coil:** 61mt (200ft) continuous length.

### **TEMPERATURE RANGE**

-40°C to 120°C with peaks of 232°C.
