## APPLICATIONS

Transfer of potable water, non-potable water or liquids not containing oils or chemicals from a supply ship to an offshore drilling rig or platform. Various water-based transfer applications for offshore or onshore work sites. The food-grade tube meets FDA requirements and will not impart taste to drinking water. The heavy-duty reinforcement is designed to survive extreme oilfield application requirements. The specially compounded cover material is designed to withstand the harshest environment including abrasion and weathering.

## FEATURES

- Food-grade tube meets FDA requirements.
- Hose designed to withstand 2.5 ton tensile force.
- Suitable for suction and delivery applications.
- 4:1 Safety Factor.
- ABS and DNV Type approval.

## CONSTRUCTION

**Core tube:** Type D2 (Natural Rubber). White.  
**Pressure reinforcement:** Synthetic, high tensile textile with steel wire helix.  
**Cover:** Type P (EPDM).  
**Design Factor:** 4:1

## TEMPERATURE RANGE

-40°C to +66°C.
