2748D COPPER HEAD - DOUBLE COVER

WATER JETTING

Water jetting applications

| # | Ø | | | Ó | | 7 | | | R | Kg | |
|----------------|----|------|-----|------|------|------|--------|------|---------|-------|------|
| | DN | size | mm | inch | mm | bar | psi | bar | psi | mm | kg/m |
| 2748D-05V32/15 | 8 | -05 | 7.9 | 5/16 | 21.8 | 2800 | 40,600 | 7000 | 101,500 | 230.0 | 0.99 |

APPLICATIONS

For very-high pressure lances for the construction and shipbuilding industries or for common industrial cleaning applications. Mainly used for hydrodemolition and removal of accumulated dirt and materials from surfaces such as concrete, asphalt and tanks.

FEATURES

- The hose benefits from an integral bonded second cover which is a different colour so the second cover acts as an early warning without having to take the hose out of service
- Polyurethane cover increases abrasion resistance
- The hose is lighter than one with a spiral guard or helix reinforced cover
- Smoother cover means the cover is less likely to be damaged
- Same great flexibility as a single covered hose of the same pressure
- Smaller OD when compared to the same spiral guarded or helix reinforced sleeved hose with a single cover
- Fully branded along the entire length of the hose with operating pressures
- Safety colours for different operating pressures

CONSTRUCTION

Core tube: Polyoxymethylene.

Pressure reinforcement: Six spiral layers of maximum tensile steel wire. **Cover:** 1st: Polyamide; 2nd: Polyurethane, abrasion resistant.

Colour: 1st: Blue; 2nd: Orange.

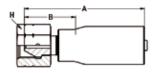

TEMPERATURE RANGE

 -10° C up to $+70^{\circ}$ C.

FITTINGS

Type "M" female swivel: Nipple: very high strength stainless steel. Shell and nut: high strength carbon steel, zinc plated.

| # | (S) | | <u>~~~</u> | Α | В | $\langle H \rangle$ | |) | | |
