APPLICATIONS

Very high constant pressure hose for water and water emulsion scaling systems.

FEATURES

- 2500 bar working pressure
- 8 mm inner diameter
- 6 layers of high strength wire
- WJTA colour coding
- ToughJACKET™ on request (PFX25-05-TJ)

CONSTRUCTION

Core tube: POM.
Pressure reinforcement: Six spiral layers of maximum tensile steel wire.
Cover: PA, silver - alternatively with double cover ToughJACKET

TEMPERATURE RANGE

-10°C to 70°C.

Please Note: We reserve the right to make technical changes without notice.
