RAFW25-025	25	1	37	25	360	100	1,450	0.70

APPLICATIONS

Air/Nitrogen and water delivery for mining and oil and gas service.

FEATURES

- 4:1 Safety Factor.
- Meets or exceeds requirements of AS 2660 Class A hose, flame resistant antistatic (FRAS), and performance requirements of AS 2554 Class AA.

CONSTRUCTION

Core tube: Black smooth, conductive NBR rubber.
Pressure reinforcement: High tensile textile plies.
Cover: Black, smooth conductive rubber fire, weather and abrasion.

TEMPERATURE RANGE

-30°C to +80°C.

Please Note: We reserve the right to make technical changes without notice.
