APPLICATIONS

Extra-flexible universal hose for suction and delivery of acids, bases, ketones, aldehydes, esters, aromatic, aliphatic and chlorinated hydrocarbons. Also suitable for animal or vegetable foodstuffs and alcoholic drinks. For correct use of the hose, refer to the chemical resistant chart.

FEATURES

- 4:1 Safety Factor.

CONSTRUCTION

Core tube:	UHMWPE, white abrasion resistant, food quality, complies with F.D.A. standards and Reg. EU 10/2011 and amend.
Pressure reinforcement:	Synthetic piles, helix wire embedded and antistatic wire.
Cover:	Blue rubber, abrasion, ozone and weather resistant. Smooth with fabric impression.

TEMPERATURE RANGE

Temperature and concentration of transported medium: refer to chemical resistance chart.
