

GENERAL HYDRAULIC

5,000 PSI

Product specifications

#												
	mm	inch	mm	bar	psi	bar	psi	mm	kg/m			
R13-32	51	2	72	350	5,070	1,400	20,400	630	6.8			

APPLICATIONS

Heavy duty lines, hydrostatic transmission, in heavy duty environmental conditions, specific installations with severe abrasion conditions, marine applications, underground and open pit mining.

FEATURES

- Approved at 1,000,000 flexing impulse cycles.
- High ozone and weather resistance.
- Biological and mineral oils compatibility.
- Temperature: -40°C to +121°C.
