RD5K-56	89	3 1/2	121	345	5,000	861	12,500	1,200	14.1

Applications

Flexible connection between the upper end of the stand pipe and the top drive / swivel and between the pump and the lower end of the standpipe for pumping mud at high pressure in oil drilling and exploration work. 3" I.D Hoses have a core tube suitable for use in Air Drilling Applications.

Construction

Core Tube:	3" Special blend, Synthetic rubber, full flow 3 1/2" Synthetic rubber, full flow
Pressure Reinforcement:	Multi-layer high tensile super flexible spiral steel wire
Cover:	Abrasion, oil and weather resistant synthetic rubber
Colour:	Black and red hose

Temperature Range

- 20°C to +121°C (-4°F ~+250°F) range I / II / III / FSL 1/2
